## ANOTHER IMPORTANT VICTORY ADDED TO AGGIES' LONG LIST

### Preston-Alexander Funeral

#### IMPRESSIVE MILITARY SERVICES OVER REMAINS

Semi-military and ultra-impressive were the funeral services of Guy B. Alexander and Claytor P. Preston, held Friday, November 16, at the Logan Tabernacle. The unusual cortege with a military escort from Fort Douglas under command of Major Binford, the elaborate profusion of flowers, the attendance of high Federal and State officials in the persons of Senator Smoot and Secretary of State Bannion, the stirring words spoken, and above all the attendance of the multitude of friends, constituted a fitting tribute to these first Logan victims of the war.

The bodies were accompanied from the respective residences by the military escort and the families and many friends. As the caskets, covered by an American flag, were borne from the street to the tabernacle, the band played very solemnly "The Star Spangled Banner."

Impressive tributes were paid the dead, by Senator Smoot, Secretary of State Bannion, Bishop B. G. Thatcher, Prof. Wm. Peterson, and Lowry Nelson. Bishop G. W. Lindquist spoke for the bereaved families, to express thanks and appreciation to the many friends who had offered and given their assistance.

Appropriate music was rendered by the Tabernacle and U. A. C. choirs combined, and individually; and by Prof. Wm. Spieker.

After the services at the tabernacle the formal procession led by the band, moved north on Main street to Fourth north street, thence east to the cemetery.

After the dedicatory prayer, as the bodies were lowered to the graves a salute of three volleys was fired by the Ft. Douglas escort.

In the peace and beauty of the autumn sunset, while their comrades in arms, their grieving families, and hosts of friends, stood noiseless as the few clouds in the western sky, the mortal parts of Claytor Preston and Guy Alexander were given back to the safe keeping of mother earth.

Members of the Alpha Delta Epsilon and Delta Nu Fraternities acted as pall bearers respectively for Mr. Alexander and Mr. Preston, while members of Sorosis and Sigma Theta Phi sororities acted as flower girls.

#### NOTICE

Because of the unpleasant feelings caused by the third Annual Be-No Booster we are prompted to make this statement to the public.

We put the Booster out to create life and fun. We put every "take-off" in for a joke. However, we admit that those on Mr. Coburn, although meant in a jocular way, were rather over done and that he is justified in feeling offended. We regret having caused Mr. Coburn this feeling.

LOU ROWE,  
STUBBY PETERSON.

Coach Watson and Captain Twitchell of the Aggies Sensational Team.

### Watson's Wonderful Football Machine Drives Through Boulder For A 23-0 Score

#### Thanksgiving Excursion To Salt Lake

##### AGGIES ELATED WITH PROSPECT OF HUMBLING THE CRIMSON

Great enthusiasm is being manifested around the college and town over the coming trip to the Salt Lake game on Thanksgiving. If the present good weather continues it is not improbable that over 2,000 students and town rooters will accompany the team. Those who have seen the University team in action this year are confident of seeing a fast, strenuous battle on Thanksgiving day. The lack of courtesy displayed by the Barrister's club at U the last year, in taking seats and megaphones on the Aggie side of the field is not expected to recur at this game.

A committee from the Student Body is cooperating with one from the Boosters Club relative to arranging details of the excursion. These details will be announced many times before next Thursday. It is hoped that excursion rates may be had over both railroads.

Tickets for the game will cost \$1.25. Student Body card good for 75c.

The team is in splendid condition for the game and is working hard. This will be the last game "Swede" Lindquist and Twitchell, the left end and tackle of the team for three years past, will be seen in.

#### HOME COMING

Many out of town alumni of the school were present at the game last Saturday, also at the alumni ball given in the evening at the Smart gymnasium. Their presence was particularly noted at the game, from the fact that they readily joined the A. C. throng and cheered for the team.

No official list was taken of the alumni present on Saturday, but the following includes most of them: S. Grover Rich, Mrs. Mildred Forgen Rich, J. Wyle Sessions, Julius Jacobsen, Joseph Olsen, Wm. Batt, H. R. Merrill, Leroy Tanner, W. J. Bond, Albert Thomas, A. C. Carrington, Ray Becraft, W. W. Knudson, E. T. Ralph, Norman Jensen, Bryant Martineau and Hart Powell.

#### NOTICE

The Music Student's first recital of this year will be given Friday, November 23, at 4 p. m. in the chapel. Everybody invited. The following students will take part:

Vocal—Gladys Smith, I. W. Poulter, La Von Bannion, Dorothy Chipman, Lola Leonard.  
Piano—La Priel Cutler.  
Violin—Lora Bannion.  
Cello—Elroy Christiansen.  
Audience, please sit in balcony.

#### MOST OF SCORING DONE IN THE FIRST HALF—STIEFEL MAKES NINE POINTS WITH FIELD GOALS

Nearly 2,000 rooters saw the game on Adams field Saturday between the Utah Aggies and the Colorado U., which will probably decide that the Aggies are to share the conference championship honors. Though the game was well fought on both sides, the victory was so decisive that Logan fans are wondering where the Waterloo of their team can be found.

Though the weather was ideal, the field was soft, which caused considerable slipping on both teams.

The work of the Aggie line was particularly brilliant. It had been predicted that Colorado would pound through the local line for consistent gains, but time after time they failed to make their downs on line bucks and were forced to kick or lose the ball. Stiefel was the greatest point maker. He played a whirlwind game at both offense and defense. Hanson, right halfback, Conkwright, Peterson, Cannon, Twitchell and Mohr each did stellar work. Worley's punting and booting on the kick off had unusual force, the oval being caught behind the five yard line in most cases of the latter.

For the visitors Fulghum (fullback), Noggle (left end), and Samuelson (right end), showed brilliant work, especially on defense. Their tackling was deadly. The Colorado team outweighed the Aggies by about 3½ lbs. to the man.

Scoring came early in the first quarter, after Boulder had been held for downs and forced to kick. The Aggies began an irresistible drive for a touchdown which was completed by Stiefel with a clever dodging run through the center of the field to the goal line. The goal kick by Stiefel was true. The remainder of the quarter was nip and tuck, neither team having any decided advantage. The Aggies advanced the ball to the Colorado 25 yard line where Stiefel kicked a drop, making the score for the first quarter 10-0.

Early in the second quarter Stiefel kicked a drop goal from the 35 yard line. During this quarter the Aggies recovered two fumbles and twice kicked into the line and recovered. Then Peterson got on side of a punt, followed it down, picked it up from under the eyes of the U. of C. players and loped over for the second touchdown. Stiefel kicked goal. The first half ended with no further scoring. Score, U. A. C. 20; U. of C., 0.

The second half opened with desperate battling on both teams. Some brilliant runs were made by the Aggie backfield. A noticeable feature was the inability of the Aggies to connect up on any of their (Continued on Page Four)

### Hon. Francis Neilson Congressman Talks To Students

#### LECTURES ON "PRESIDENT WILSON AND WORLD PEACE"

In the midst of the usual prattle about annihilating Germany, it was a happy relief to hear a man with the grasp of history possessed by Mr. Neilson suggest "internationalism" as the basis for establishing a sound peace after the war. His record as a writer and as a member of the House of Commons, attests that such a plan is no mere utopian dream.

Mr. Neilson held his audience in absolute silence. He referred to President Wilson's speech before the Senate last February as the greatest document that has been written on Democracy for 150 years. Col. House has gone to Europe with instructions to ask the Allies to put their cards on the table and state frankly what they are fighting for. No more secret diplomacy will be tolerated. The small peoples of Europe must control their own affairs through the extension of the Monroe doctrine. U. S. points the way to the settlement of the European turmoil by assembling peoples of various languages under a single control which works for the welfare of all and yet permits a great degree of home rule. People who love humanity and insist that this must be the last great war, half the day when the anthem of Europe will be, "The United States of Europe, My Country 'Tis of Thee."

Conkwright and Stiefel spent Sunday in Salt Lake.

#### HON. M. H. WELLING GIVEN WARM OVATION AT COLLEGE CHAPEL

Declaring the war has revealed the soul of America to the American people, Congressman Welling gave a splendid address to students Tuesday, which proved America innocent of selfish motives in entering this war. A wrong philosophy entertained by Germany, which held war to be a biological necessity is one of the causes of this war. Might must not be right. After the U. S. had defeated Spain in the war of 1898, she gave her defeated enemy \$20,000,000 for such rights as she thought she possessed in the Philippines. In contrast to Germany's vicious "Kultur" is the love shown by France for Poetry, brotherhood, and equality. Utah's share and the share taken by Claytor Preston and Guy Alexander in particular in this war have been worthy of high commendation. It is as honorable for a young man to remain at home doing his duty, ready to go when his country calls him as to forsake the work around him and volunteer for the army. Every one must assist in this gigantic struggle.

In closing, Mr. Welling said he has faith in the destiny of this Nation and feels that God will guide us through the present struggle as he has our critical periods of the past.

Music Students' concert Friday at four.

Volume XVI. THURSDAY, NOVEMBER 22, 1917. Number 11.

## A TEMPEST IN A TEAPOT

The U. A. C. Booster attained a popularity which there is no reason to believe its authors are overjoyed with. Its sudden entrance into the limelight was due to certain jokes or insults, (according to your point of view) directed at a faculty member.

These remarks, and the manner in which they were presented to the football fans without any one being named as responsible for the criticism, were unjustifiable. The students responsible for them are men enough to admit a mistake. They strenuously deny any vicious intentions when the sheet was published.

The faculty member concerned missed an opportunity to show a lofty caliber of manhood by refusing to be angered by the attack, which would have won the applause of the entire Student Body.

But we are concerned with mightier events. We are too busy winning the Rocky Mountain Conference football championship to be troubled with these petty squabbles. We are in the position of the Pullman Conductor of a trans-continental express, who was up to his ears in work when the Porter looked into the apartment and said: "Say, Boss, dere's a lady back heah what insists I close de window cause she's freezin'; an another lady right across de aisle says I got a' open dat window cause she's suff'catin'. What am I gwine do?" "Why, close it and suffocate one, and then open it and freeze the other," snapped the Conductor in reply.

## THANKSGIVING VACATION NOTICE

Attention of all students is directed to the following faculty rule regarding attendance immediately preceding and following a vacation:

"Any student leaving school immediately preceding a regularly announced recess holiday, for example, Thanksgiving or Christmas, without permission of the Committee on Attendance, and the approval of the President shall have his grade for the term reduced ten per cent for each offence."

In keeping account of such absence, the two days immediately preceding and following the vacation will be considered.

## Fragile

## PROF. HENDRICKS HONORED

Professor G. B. Hendricks, Director of the School of Commerce and Business Administration of the College, has been invited to contribute a monograph on the Disadvantages in Diversity of Laws Relating to Marriage and Divorce, Control of Corporations, and Criminal Legislation, and on the Problem of Correction and Reformation, for the American Educational Material company Philadelphia. This monograph is to become a part of an extended course of reading and study being prepared for students and teachers of America to be known as the Specialist Plan. Each subject will be handled by an authority of national fame.

MONDAY, NOVEMBER 26—Cosmos Club at 7:30 at the Sigma Alpha Fraternity House. Kahn talks on Humanitarianism.

## GREATER DEMAND FOR MORE MEAT

## COLLEGE TO GIVE SPECIAL INSTRUCTION DURING THE WINTER TERM ON INCREASED MEAT PRODUCTION

As part of the campaign being launched in Utah for increased meat production, the College has organized special courses for livestock owners of the state in the feeding, breeding, judging, and marketing of cattle, sheep, hogs, and poultry to be given during the winter term which runs from December 3, 1917, to March 10, 1918, according to an announcement just made by President E. G. Peterson. "The need for greater livestock production cannot be overemphasized," said Dr. Peterson. "Europe has been ruthlessly slaughtering, not only her meat animals, but her dairy herds, to supply present wants. America will be called upon in an ever increasing degree to supply meat to Europe. This demand will be even greater after the war, when America must breed animals for the world. We must do all in our power to increase our immediate meat production by using the most scientific methods of feeding, and we must build up a large livestock capital by employing correct breeding practices."

The special courses offered by the College during these three months of decreased farm activity will emphasize the need for increased livestock production and show how this can be brought about. The raising of sheep on the small farm will be emphasized, as will hog production, and the feeding of baby beef. Animal judging, feeding, breeding, and marketing will be discussed. This work is designed in particular for men actually raising livestock at present. It is hoped that a most hearty impulse will be given to increased meat production by meeting directly the men from the farms.

## SNOW TAKES THE PEN

Princeton, N. J.  
Nov. 5, 1917.

Dear Heber:

Yours of recent date has just arrived and I am now "stealing" thirty minutes to answer it.

Busy is trite, Hebe, when it comes to this game. I was never busy or tired. I am acquainted with the meaning of the words now.

We are playing for big stakes here. \$3,000 per if a man makes good and a First Lieutenant early in the game. The pace is cold as steel. The Major says: "U. S. is preparing 20,000 fliers to crush Germany and we will sort the 10,000,000 available men in the country so if you cannot keep the pace, just fall out, or better we kick you out."

I think 75 percent of first applicants are rejected and 15 percent are falling down here. One is allowed one failure covering a week's work and the next time he flunks, his neck is placed on the block with as much precision as was "Cartons" in "Two Cities," and a man's army head falls into the pit.

I have passed the first two weeks but, Hebe, I would not wager a penny on my chances. Hundreds of the men are college grads and not a few post-grads are present.

We "fall in" in the dark and have thirty minutes of calisthenics

before old Sol peeps over the misty bank of the eastern horizon and he sinks to rest long before routine ceases. The Profs. say that the men must get a year's college in eight weeks and I believe it is dam near true.

I am glad to know that A. C. is winning and in some ways, Hebe, I am sorry that I am not there but I feel now that personal matters must be forgotten. It now seems that should I finally emerge alive that my life is set back beyond recovery under the conditions which I am placed. I forget this though and I am prepared to make the supreme sacrifice if the fates so weave the mesh. It grows on a man as he hears the "baptism of fire" and the depths of misery and woe. I believe that the men of '17 will be as true to an ideal and as courageous as the men were in '61 or '14. I admire the men here as they are not afraid to die.

For long time I scouted the war; but now if I could walk back to the hill, I would not move one eternal pace backward. When I see that I go unhampered to fight and that many men are forced to go leaving wives and children, I think I am carrying but half of my share. It is a hell of a thing and you need not believe all of the fine tales of the paper on it. When you go to war, you go to die and the whole game is to fit a man to that end and it is difficult to train out of a man that inborn dread of the untraveled land.

America must fight and fight like hell but I am confident that we are going to win no matter how many Belgians, Serbians and Roumanians fall a victim to the roller of Prussia. France and England will stand fast and some day we will smash that gang.

I must close now and dig for exams.

As ever,

J. W.

U. S. School of Military Aeronautics, Princeton, N. J.  
Class of Decemtr 15th, when I hope to wind up here.

P. S.—I forget Hebe, that women form a vital part of the world here. I have hardly seen one in three months.

Storm McDonald, '16, was a week end visitor.

Howard Christiansen writes from Camp Lewis for Student Life.

J. J. Richardson, '16, is in Exeter, California, with the bureau of plant industry.

At the end of the first quarter Miss Cox wanted to know when the game was going to begin.

"Waiter, it is almost half an hour since I ordered that turtle soup."  
"Sorry sir, but you know how slow turtles are."—Ex.

A leading poultry journal unwittingly confides the following to its subscribers: "M. C. Forbs, the wizard breeder, shares his knowledge about mating Leghorns with our readers."

Charles H. West, brother of Professors Ray and Frank West, has just received his commission at the Officers Reserve Training Camp at the Presidio. Lieutenant West graduated from the U. A. C. and took a post graduate course in engineering at Berkeley.

The third annual Purdue Chrysanthemum show will be held this month at the University. Among the features of this year's exhibit will be a large collection of pom-pom chrysanthemums and mammoth single blooms. In addition there will be a display of roses, violets, ferns and carnations. The main vegetable crops shown will be tomatoes, cauliflower and lettuce. A special educational feature will be a display of the proper storage methods for root crops. The exhibit is open to the general public, free of charge. Prof. W. E. Lommel, assisted by students of horticulture gives the show.

One of the most notable steps in the advancement of Western agriculture has just been taken by the Experiment Station of the College, according to an article written by Dr. J. E. Greaves, Professor of Bacteriology and Professor C. T. Hirst, of the department of chemistry, appearing in a recent issue of Soil Science. This article, formidably captioned "Some Factors Influencing the Quantitative Determination of Nitric Nitrogen in the Soil" describes a new method for the determination of nitrates of Western soils. All methods heretofore developed failed when applied to soils high in alkali. In as much as the quantity of nitrates present in a given soil indicated the fertility of that soil, it was extremely important that a method for nitrate determination be evolved. Professors Greaves and Hirst set themselves at this task some time ago, and they now announce the perfection of a reliable method. In reality, a new tool for agricultural advancement has been forged, and many advances hitherto impossible will now be made easy.

## CAMPAIGN FOR ORGAN CONCERTS UNDER WAY

President Meeks of the Student Body, appointed Hulme Nebeker chairman of the organ concert committee with power to choose the other members of the committee. Mr. Nebeker has broached the subject to Prof. Hickman, chairman of the U. A. C.-B. Y. C. Lyceum course, who is heartily in favor of the plan, and will act as a member of the committee

## FARMERS STEP HIGH UNDER BRIGHT LIGHTS

Ed. Note.—The following article failed to appear in last week's Student Life, due to a misunderstanding with the printer:

Midnight of Friday last brought the close of another Ag. Club Ball. The Farmers annual has always been one of the most classy affairs "pulled off" at the U. A. C. The 1917 "hop" was strictly up to standard. Due to a number of factors the attendance was not as large as usual, but the "live ones" and their maids were there.

The decoration committee instituted a precedent in Hooverizing, for such functions. Cobs of golden corn fresh from the field formed large chandeliers which spread a soft yellow light over the creeping strands of green, and the secluded cozy corners, constructed of moss, vines, corn stalks and lattice work. Even the miniature barnyard seemed peacefully at rest and gave to the farmers that feeling of "hominess" which takes the chill from the big functions.

Si Perkins and Uncle Jake in good humor served good old sweet cider and wafers over a fount of sweet smelling hay. Great baskets of juicy apples were almost emptied.

Nifty programs, bearing on the cover an insignia of the members—the homely sugar beet—contained a lengthy list of the best dance music. The orchestra was good.

Hail to the Farmers! May they be the fathers of many such high times in the future.

### ANOTHER IMPORTANT VICTORY ADDED TO AGGIES LONG LIST

(Continued from Page One)

forward passes. It seemed Colorado knew where each pass was going. Samuelson of the visitors, did excellent work in breaking up and intercepting these passes. Score, third quarter, 20-0, U. A. C.

In the last quarter Conkwright intercepted a forward pass and the ball was rushed to within striking range of the Colorado goal. Here Stiefel failed in an attempt at a drop goal kick. A field goal by Stiefel later in the quarter completed the scoring. Score 23-0, U. A. C.

The line-up:

U. A. C.	U. of C.
Jarvis.....	l.e. Noggle
Twitchell.....	l.t. Easton
Crookston.....	l.g. Franklin
Cannon.....	c. V. Adams
Worley.....	r.g. Yegge
Mohr.....	r.t. Loper
Gardner.....	r.e. Samuelson
Stiefel.....	q. Eastman
Peterson.....	l.h. W. Adams
Hanson.....	r.h. Lillie
Conkwright.....	f.b. Fulgum

Substitutions: Colorado—W. Adams for Trowbridge; Browling for Franklin; Scheidegger for W. Adams; Dickinson for Fulgum; Kneal for Costello; Sears for Lillie; Costello for V. Adams.

Aggies: Olsen for Peterson; Lindquist for Gardner; Spencer for Jarvis; Anderson for Worley; Larsen for Crookston; Jensen for Anderson.

Score by quarters:

U. A. C.	U. of C.
1st—10	0
2nd—20	0
3rd—20	0
4th—23	0

Referee, Pitzpatrick; Umpire, Bassett; head linesman, Ashton; timer, Ashton.

### NOTICE

Owing to the popularity of pigs and cows in the world just now, Mr. Cooley announces reluctantly that he must charge 10 a dish for ice cream and 10c a slice for roast pork.

### "THE HOOD"

#### SHAME ON THE EDITOR

Ed. Note.—The following article is signed only with initials. No doubt the author will be proud to acknowledge it. We suggest that a man with such a remarkable "nose for news" act as a regular reporter for the paper:

Apparently the only literary means the Ag. Club has of getting things to the public is thru the columns of the Salt Lake news papers and the Logan Journal. Student Life it seems does not recognize the club altho it is the largest, most wide awake club in school and has for its members the most active men of our student body.

We were promised by the editor an ad across the bottom of the front sheet of the issue the day previous to the ball, announcements of the same in the "locals," and a write up in last week's issue after our success.

True enough our write up after our dance was completed and handed to the editor. Carelessness, neglect and forgetfulness should not be a part of a person posing as editor of a college paper. Oversights are pardonable but not when repeatedly occurring in rapid succession.

Possibly it is due to the fact that our kind editor is a commercial student or that our ball outclassed what he had in mind as chairman of the Junior Prom. For some reason we have failed to receive the proper treatment from the executives of our school publication.

We suggest, if space is what you lack to "cut out" a few lengthy discourses on Bear Lake parties and a few ads leaving room for a little school news.

Scores of students have inquired about the condition and the Ag. Club especially would like to know if we are to have any support from our school paper. R. J.

### FACULTY MEMBER REINFORCED

Mr. Tracy H. Abell, Assistant Horticulturist, is very fond of roses. When he came to Logan this summer he missed that beautiful flower that grows in such abundance in the Oregon cities. He was lonely and his heart yearned for Rose. Finally he could stand it no longer and last week he sped away to Bozeman, Montana, where on Saturday, Nov. 17, he married Miss Rose Sexton of that place. The happy couple reached Logan, Sunday night. Needless to say this city now appears superbly beautiful. Their earthly heaven is on 1st South between Main and 1st West.

Student Life joins their many friends in wishing the newly-weds a long, happy, and prosperous life together.

### Hopeless

A three hundred pound man stood gazing longingly at a haberdasher's display in a window. A friend stopped to inquire if he was thinking of buying a certain lavender silk shirt.

"Gosh, no!" replied the fat man wistfully. "The only thing that fits me ready-made is a handkerchief."

—EX.

This  
**'Warning Signal'**  
Insures proper  
speed on every  
**NEW DE LAVAL**  
Cream Separator

NINE people out of ten turn the separator handle too slowly. Thousands of tests with experienced separator operators show this to be the case.

Other tests made by the highest authorities have shown conclusively that there is a big cream loss when the cream separator is not turned fast enough.

Such cream losses are avoided with the New De Laval. The Bell Speed Indicator on the New De Laval is a "warning signal" that insures proper speed at all times. No matter who runs the De Laval, this "warning signal" tells when the speed is not right. You hear it, and do not need to see it. This one feature alone may easily save the cost of a cream separator in a few months.

But that is only one of the big advantages of the New De Laval.

Other advantages are greater capacity, closer skimming and easier turning, simpler bowl construction and easier washing.

All discs are now interchangeable and are unnumbered. There are fewer discs. On account of greater simplicity of bowl construction, the New De Laval is easier to wash and, capacity considered, is still easier to run than before. High grade construction and design, together with perfect automatic lubrication, are a guarantee of durability and satisfactory service.
